### Company Party Venue **The Scenario: Choosing a Company Party Venue**

Imagine you're part of a team tasked with selecting a venue for your company's upcoming team-building party. Among the options, a place called *Luminara Gardens* has been suggested. Your goal is to explore why this venue might (or might not) be suitable for the event.

To assist in this decision-making process, you'll be interacting with an AI assistant called Blitzcrank. Your dialogue with Blitzcrank will involve: Initiating the conversation with a question about Luminara Gardens. Evaluate Blitzcrank's arguments by selecting a confidence level that reflects your assessment. Choose your responses from the provided options, paying close attention to their assigned confidence levels. Reflect on why certain arguments seem more or less convincing to you.

#### **Your Task**

The core of this study lies in how you interact with the information provided by Blitzcrank and how you select responses. Please pay close attention to: The arguments presented by Blitzcrank. Your evaluation of these arguments. The confidence levels associated with each argument (both Blitzcrank's and the ones you select). Confidence levels range from "Very Low" (you believe it is unconvincing and not true) to "Very High" (you believe it is convincing and true).

Confidence levels are crucial for our research, so when selecting your responses please carefully consider the confidence level attached to each option. And remember, there are no right or wrong answers. We're primarily interested in understanding your thought process and how you interpret and respond to the information presented.
